Extra	Film and Photography

Projects

- **Sosile Client**
  Sosile is a social media site that I am actively developing as a platform to experiment with a larger set of technologies such as WebRTC. Built with NextJS,Apollo,Typescript

  Code: https://git.amazingefren.com/sosile-client
  Live: https://sosile.amazingefren.com

- **Sosile Server**
  API featuring a fully modularized GraphQL endpoint utilizing awesome technologies such as NestJS, PostgreSQL, Fastify, PrismaORM, and protected with a OAuth2.0 inspired Authentication model

  Code: https://git.amazingefren.com/sosile-server
  Live: https://sosile.amazingefren.com

Experience

- **Web Developer** - Freelance
  June 2020 - November 2020
  Developed a REST API with Typescript implementing Square Orders API and Postmates providing seamless mobile-ordering for the people impacted during the COVID-19 pandemic

  January 2021 - March 2021
  Deployment of a Jitsi Meet Server on a fully featured Nginx reverse proxy. Developed a set automation scripts implementing Bash, Python, Docker
